

Nursery Panda Class Newsletter

Maths

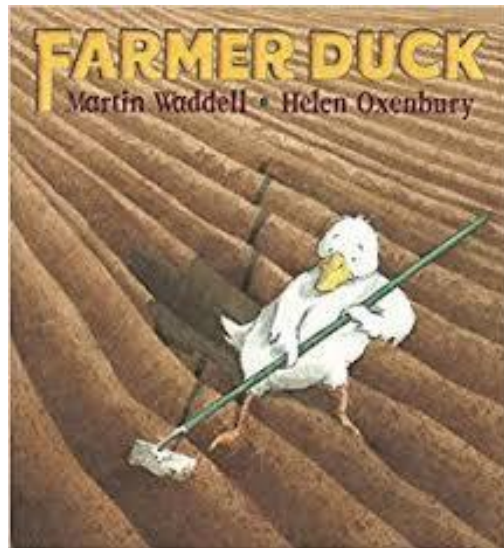

This week we will begin short maths sessions. We will begin by joining in some number rhymes and look at the shape of the numerals.

New Topic -
I wonder where our food comes from?

Our book of the week this week is -

This Week -

After listening to the story of the week we will talk about where we think our food comes from. We will then plant our own cress seeds to show that we can grow our own food.

As the weather turns colder and wetter please send your child to school with a named pair of wellies (that can preferably stay at school), jumpers and coats. This will enable the children to be able to access outdoor play in all weathers.

Playdough Disco

To support the children's fine motor control we will begin playdough disco this week. Each child will have their own piece of playdough and we will move it to music. This will help the children gain strength in their hands to enable them to begin to hold a pen.
