Unity Education Trust has expanded its family of schools and education professionals. Our collaborative work over the last 6 months has ensured a measured evolution into our new formal Trust arrangements. We're welcoming outstanding teachers, subject specialists, tutors, support staff and experienced leaders with a record of transformation in education. We have also enhanced our central support services to ensure our schools continue to be supported to deliver exceptional service to our pupils, parents, carers and the local community.

Teachers, and support staff now number 795. All of our staff share the ethos of raising aspirations, unlocking potential and securing the best possible future for the 2700 young people attending our schools.

I am delighted with the transfer approval and believe the diverse education and services provided across mainstream, alternative provision / Specialist and social emotional and mental health will place Unity Education Trust in a unique position and create further opportunities for supporting pupil progress, achievement and well-being and continuous professional development for all staff through effective collaboration and sharing of practice.

Although pupils and parents / carers may notice little change at their individual schools where staff, pupil uniform and the school day will remain the same, they will see, as our two Trusts consolidate, the unrelenting commitment to achieve the very best outcomes for all our pupils across all settings regardless of their starting points and circumstances.

I am excited at the opportunities this new partnership will bring and I look forward to seeing our new Trust go from strength to strength. I will keep you all updated on our continuing developments.

Yours sincerely,

Glyn Hambling

Chief Executive Officer
